

INTERGROUP

Candidate MEPs are encouraged to complete the pledge for a Volunteering Intergroup.

- ✓ The creation of a European Parliament Intergroup on Volunteering is necessary to ensure an on-going commitment of the European Parliament towards the further development of a comprehensive EU agenda on volunteering.
- ✓ A cross-cutting issue as volunteering, needs an official and structured intergroup, in order to have the financial resources to facilitate the activities.
- ✓ The intergroup will be a crucial cross-party and cross-Committee framework for ensuring the good implementation of the European Solidarity & Voluntary Service (European Solidarity Corps).

I (name) BRANDO BENIFEI
MEP candidate for ITALY - S&D GROUP
in the event of my election in the 2019 European Parliament elections, commit to supporting and promoting the establishment of an EP intergroup on volunteering.
