Brief description of the project and what you did: The project is supposed to be about working with the youth and encouraging them to learn about culture and political awareness. We participated in a cultural exchange between German and Portuguese school students, gaming events and photography. We had the choice of taking a personal project where I chose to help with the renovation of the damaged headquarters and dirty rooms.

Your favourite moment: The cultural exchange. It was fun to interact with the children and see the Germans' first reaction to the beach.

Impact on yourself: I took this volunteering while studying for my next year in university. This has helped me improve and prepare in advance.
