Brief description of the project and what you did: During my ESC year, I was a tutor assistant, so I was helping out the lead tutor to teach classes from people age 1-99 years old, but I was mainly teaching small kids or teens. I also took part in creative projects like creating shows.

Your Favorite moment: I can't pin down one specific moment, but I would say the small moments you realise you have a positive impact on kids (e.g. when they show affection, or tell you a kind word)

Impact in the community: Something I tried to do last year was to raise awareness about the earth and how we treat it (I organised a beach clean-up with circus students)

Impact on yourself: This year allowed me to evolve on some aspects positively, some a bit less, but I would say one positive one is that I'm more assertive about my life.
